ANACOMDA

## SSD 安裝手冊

### SSD QUICK START GUIDE

## INSTALL IN DESKTOP COMPUTERS

1. Be sure to power off the system and disconnect all power cables.
2. Remove the outer casing of your computer (see the computer owner's manual for instruction).
3. If your system does not provide 2.5-inch drive bays, you will need to mount the SSD onto the 2.5-inch to 3.5-inch adapter bracket.
4. Install the SSD into an available drive bay. (Please see the computer owner's manual for information on how to remove the existing hard drive).
5. Connect the SATA and the power cable from the motherboard to the SSD.
6. Restore the outer casing to original position and power on your system. The SSD should now be recognized by the system.

## INSTALL IN NOTEBOOKS

1. Be sure to power off the notebook, disconnect all power cables and remove the battery.
2. Locate the hard drive access panel, unscrew and remove the access panel.
3. Remove the HDD from the drive bay (Please see the system owner's manual for instruction).
4. Remove all brackets and connectors from your HDD and install it on the SSD (if necessary).
5. Place the SSD into the drive bay and insert the battery back into the system.
6. Power on your system and the SSD should now be recognized by the system.

### 安裝到桌上型電腦 \*需3.5" 轉接支架

1. 安裝前請先關機並將電腦的電源線拔出插座
2. 請參考您的電腦使用手冊, 拆除電腦的機殼蓋
3. 將 ANACOMDA 固態硬碟固定於3.5" 轉接支架上
4. 將固定於3.5"轉接支架上的固態硬碟安裝回主機
5. 請將原本安裝於硬碟的電源線與 SATA 纜線接到您所購買的 ANACOMDA 固態硬碟, 這部分請參考您的主機板手冊
6. 開啟電腦, 固態硬碟安裝完成

>>>

### 安裝到筆記型電腦

1. 安裝前請先關機並拔出電池
2. 找出硬碟槽並拆除原有的硬碟
3. 將硬碟架拆下裝上ANACOMDA SSD
4. 將ANACOMDA SSD插入硬碟放置處
5. 裝回電池開啟電腦，固態硬碟安裝完成
